

# Manage API Tokens

Create API Token

This feature lets you create and manage API tokens for cPanel API 2 and UAPI. For more information, read our [documentation](#) .

## TOKEN CREATED SUCCESSFULLY

[Show/Hide Help ?](#)

You successfully created an **unrestricted** API token "Enter\_the\_API-Token\_Name".

Copy the following token to a safe place:

**API Token**

AV06299YVODN4I6X66S1NG6CZ1FYTIPG

Copy 

### Warning

This is your only opportunity to copy this token!

For more information about how to use this token to make API calls, read our Developer Documentation (<https://go.cpanel.net/developerdocs>).

☐ Create another token after I click *Yes, I saved my token*.

[Yes, I Saved My Token](#)
